

Technicians

These courses have been developed by science professionals and experienced technicians to help you develop your role as a technician and effectively support a busy science department. We look forward to your active participation in any of the following courses over the coming months.

Senior Technicians: Leadership, Training and Management

YHC11073 This 2 day course is for senior technicians who are responsible for running or aspiring to run their department's technical service. Participants will examine senior technician roles, managing effective technical services, creating local groups and training other technicians and teachers. Day 2 of this course is on 10 Jan 2012.
